Additional Note(s):

- Negotiated rates do not apply to non-covered services in states that prohibit limitations for services not covered under a plan. Participating providers in these states may charge their non-negotiated rate for non-covered services. This amount may be higher than the amount identified under the Patient owes column and the patient is responsible for the amount billed for the non-covered service. Please discuss with your patient the fees charged for services not covered under their dental plan.
- We shall provide coverage for Dental consultation and treatment services that are appropriately delivered through telehealth services. We will reimburse you on the same basis and to the same extent had the consultation and treatment services been performed in-person.
